

### No More Mediation Until Carranza Is Ready For Sessions

Envoys and American Delegation Leave Niagara Falls and Others Will Probably Make Their Departure Today

#### SILLIMAN TO RETURN TO MEXICO

Will Proceed to Saltillo Virtually as President's Representative to Talk Over Matters With the Constitutionalist Leader

NIAGARA FALLS, July 2.—With the departure tonight of Ambassador Da Gama of Brazil, Minister Naum of Argentina, and the American delegation, the Pan-American mediation conference formally ended its sessions here. Minister Suarez of Chile and the Huerta delegates will leave tomorrow. When or where the next meeting will be held depends for the present upon Carranza.

WASHINGTON, July 2.—Fully instructed on the Washington government's attitude toward every phase of the Mexican problem, John R. Silliman will leave tomorrow for Saltillo to represent the United States at the temporary capital of Carranza, the chief clerk of the constitutionalists.

It is understood that he goes virtually as the president's personal agent to talk with the revolutionary leader and to lend a hand if occasion offers, in leading the Carranza-Villa breach and particularly to further impress upon the constitutionalists the urgent necessity of early peace in Mexico through the provisional government as proposed at the Niagara mediation conference.

Silliman, who was a classmate of the president at Princeton, is the regularly accredited vice-consul general at Saltillo. He returns to his post, now Carranza's headquarters, under permission recently given by Huerta.

A few weeks ago he was a prisoner there, charged by the Huerta officials with aiding their enemies, and his release was granted only on the condition that he leave Mexico not to return.

While the administration was rearranging for the vice consul's departure, constitutionalist agents here were still seeking to learn by telephone what is going on at Saltillo. Late tonight it is said that no definite information had come, either as to the status of the internal differences or concerning Carranza's conference with his generals over the proposal of the mediators that the constitutional and Huerta delegates meet to discuss plans for peace and a provisional government.

Interest in Conference  
EL PASO, July 2.—Interest in the Mexican situation centered today in the conference of constitutionalist leaders at Torreon, the purpose of which, it is stated, is to heal the breach between Carranza and Villa. So far as is known, Carranza was not represented at the conference. No fighting was reported from any quarters.

General Villareal, who arrived today at Torreon from Saltillo, and Gen. Coy, who assisted Villa in the Torreon attack, reported having begun a discussion with Villa and Angeles, of their misunderstanding with Carranza.

If Carranza sanctioned the proceedings, it has been done through Gonzalez, in the opinion of agents of both factions here. Prospects of obtaining ample supplies of coal in Northern Mexico have renewed the commercial as well as the military plans. It is announced that three coal mines of English ownership in Coahuila state would be put in full operation as soon as certain guaran-

### Dozen Posses Searching For Train Bandits

PENDLETON, Ore., July 2.—Scattered through the Blue mountains in Coahuila and Union counties, nearly a dozen posses are searching tonight for the bandits who escaped early today after holding up west-bound passenger train No. 5 on the Oregon & Washington Railroad and Navigation line. Deputy Sheriff George McDuffey, who was wounded during the battle in which he killed one and wounded another of the robbers, is resting easily at the hospital here tonight.

His bed is banked about with flowers from the grateful passengers. That another battle will be fought when the bandits are overtaken is taken for granted by the posses. Reports received late today were that

### Mayo's Report Restores Confidence In Oil Region

WASHINGTON, July 2.—Unrest in official circles over the disturbed conditions in the Tampico and Panuco oil regions, where oil operators have been reticent about paying contributions to the constitutional cause, was considerably allayed by a report from Admiral Mayo, who said the constitutionalist commander had promised protection to foreigners. Secretary Daniels gave out this statement based on Mayo's report: "Advice is at hand that Mayo visited Panuco yesterday and in company with the American consul had

an interview with the military commander of protection for foreigners. Mayo feels that his visit had a good effect, and there will be no further cause for complaint. "The oil company officials have been sufficiently reassured by the representations made by Mayo, to direct the return of their employees to the oil fields. The employees will go back to work today." Mayo made no mention of the reported order for the surrender by the Americans in the Tampico district of all arms and ammunition to the civil authorities.

### CROWDS THROG Prescott For Opening Day

Program Starts This Morning With Finish of Big Motorcycle Race at the Plaza—Loop Road Road in Great Shape

(Special to The Republican)  
PRESCOTT, July 2.—Frontier days open up tomorrow morning with a concert by the First Regimental band of Phoenix, and will continue for three long and busy days until they end with the finale of the great loop race, in which automobiles will try to break all records or their own tracks along the finest long circular course in the southwest.

The town is full of cowpunchers and auto and motorcycle racers. They are to be distinguished only by the fact that the cowpunchers are usually more spaced up than the benzine bugs. For these few days of much tinkering and the roar of cars being tested out is continually filling the air.

Three times last year's crowd is already here, and more are expected. Hotels are full, school houses are planted with cots, and private homes have been thrown open to visitors.

Among yesterday's arrivals were Stan Murphy and Hugh Miller in their Mercers. After striking rain at the Indian school, they drove in a downpour all the way to the top of Copper Basin Hill. They resembled huge clouds when they arrived.

Col. D. K. E. Solare, for whose safety anxiety was felt yesterday when he failed to arrive, pulled in this morning, having camped out all night on a mountain.

The feature of the program this morning will be the finish of the Phoenix-to-Prescott motorcycle race at the plaza. It is known here that the rains in the lower valleys have much improved the roads, so if it does not rain any more the machines will certainly be here by 11 o'clock. Arrangements for receiving the racers are now complete, having been completed today at a meeting of a committee of members of the Yavapai Motorcycle club with Phoenix representatives.

Ray Vine, judge at this end of the line, has named the timers and checkers who will maintain telephonic communication with Phoenix and points along the course during the progress of the race. No accidents are anticipated, although the road is

(Continued on Page Two.)  
tees are secured from the constitutionalist government. This would give the constitutionalists coal supplies to run their railroads, the lack of which hampered seriously their military movements.

### WORD COMES TO VALLE'S COTTON MEN

Memorandum from Dr. Swingle of Agricultural Department Urging the Closest Co-operation by Local Growers

Charles Waterhouse, of Tempe, president of the Central Egyptian Cotton association, on Wednesday received a cablegram from W. S. Doorman stating that he had just arrived in Liverpool in company with Messrs. Scofield and Taylor, of the department of agriculture, who have been sent, Mr. Doorman by the association and Messrs. Scofield and Taylor by the department, to acquaint the English market with the long staple cotton of the southwest. They will remain in Europe about three months, visiting France, Germany and Switzerland.

Mr. Waterhouse also received from Dr. W. T. Swingle, physiologist in charge, five copies of a memorandum prepared by the committee on southwestern cotton culture of the department of agriculture, giving the conditions under which the Salt River valley growers can get the advantage of the department's co-operation in "roughing" the fields and classing the crop.

Because of the presence of short cotton in the valley, Dr. Swingle says the question of pure seed becomes one of paramount importance in the maintenance of Egyptian cotton at its present high standard of quality in this valley. The importance of a proper classing of the cotton, Dr. Swingle says, in facilitating the sale of this year's bumper crop, needs no emphasis. He urges every Egyptian cotton grower in the valley to become affiliated with a cotton growing association, which in turn co-operates with a central association in marketing the crop. In no other way can the grower hope to benefit from the trip now being made by Messrs. Doorman, Scofield and Taylor.

Says Dr. Swingle: "To attempt to sell in the English market, Egyptian cotton from a new and unexpected quarter makes it necessary that the product reach those markets in the best condition, and classed so as to appeal to the buyer. It seems to us that this will necessitate not only the careful classing of the crop but also the installation of a compress that will permit bales being put up in the very best shape so that they can reach England in as good condition as the cotton sent from Egypt."

The following is a copy of the memorandum sent by Dr. Swingle: "Pure Seed Supply  
In accordance with preliminary announcements that have been made from time to time during the present year, the department of agriculture is in a position to assist Egyptian cotton growers in the Salt River valley to secure and maintain pure seed. This is vitally important to the industry because short cotton is being grown in some parts of the valley and will cause rapid deterioration of the Egyptian cotton growing in the fields near by unless the most thorough precautions are taken.

In view of the large numbers of cotton growers in the valley and the necessity of carrying out a uniform policy in regard to seed, it is manifestly impossible for the department to co-operate with individuals. It has been considered best for the department to co-operate only through the central cotton growers' association, so that all the subsidiary associations will have exactly the same treatment, which would not be possible if the department had to negotiate with each one separately. As the department cannot continue to do this work indefinitely the central

### MYSTERY HANGS OVER SLAYING OF MRS. BAILEY

While Physician's Wife is Viewing Body of Murdered Woman, Detectives Are Searching for Revolver With Exploded Shell

#### AN AUTOPSY IS ORDERED

Despite Protests of Husband Officials Insist Examination Must Be Made and Threaten Supreme Court Order

FREEPORT, N. Y., July 2.—While Mrs. Edwin Carman in Hempstead this afternoon was viewing the body of Mrs. Louise Bailey, the Long Island matron, killed by a mysterious shot through a window in Dr. Carman's office here on Tuesday night, detectives were pumping out a cesspool and well in the rear of the physician's residence and a cesspool in the cellar. In one of the three places, the detectives said they expected to find a revolver containing one exploded shell.

Late tonight the hunt for the weapon was still in progress, but none of the detectives believed their search would be rewarded before morning. The body of the murdered woman was taken from her home in Hempstead to the undertaker's morgue for an autopsy which had been ordered by the district attorney, William D. Bailey at first refused to allow his wife's body to be moved from the house, but after the authorities had threatened to go to the supreme court and obtain an order permitting an autopsy, he gave his consent.

Detectives are questioning every person known to have been near the physician's home on Tuesday night in an effort to obtain even the slightest clue to the murder.

Mrs. Carman and her attorneys were waiting at the morgue. Mrs. Carman was taken into the rear room and asked to look at the dead woman's features.

"Poor woman," exclaimed the physician's wife, "I am so sorry for her."

"Have you ever seen this woman before?" her attorney asked. Mrs. Carman, perfectly calm, replied: "No, I have never seen that woman in my whole life."

The physicians who performed the autopsy traced the course of the bullet, but nothing else having bearing on the tragedy was revealed.

Detectives interviewed late today, Miss Helen Combs, a lawyer's stenographer, who told them she was in the physician's house at the time of the shooting, having gone there for treatment. She said she was admitted to the house by Mrs. Carman. Dr. Carman was eating dinner and Miss Combs said she was told to wait.

"While I was there," Miss Combs said to have told the detectives, "a woman whom I know was Mrs. Bailey arrived. She did not knock or announce herself. She walked right in and a few moments later went into the doctor's office. While she was there Mrs. Carman passed through the room and went on the porch and while she was there I heard her tell one of her children not to play the piano as the doctor had a patient in the office. That was about ten minutes before I heard the shot."

In telling her story to the detectives and the district attorney yesterday Mrs. Carman said she returned from New York about 7 o'clock the night of the murder and went immediately to her room on the second floor of the house, where she prepared to retire. She denied going to the ground floor even when the shot was fired.

Miss Combs, the detectives also say, told them it was a woman and not Dr. Carman, who folded Mrs. Bailey's hands across her breast. Dr. Carman told the police it was he who folded her hands.

#### AGREE ON NOMINATIONS

WASHINGTON, July 2.—Favorable reports on three of the five federal reserve board nominations sent to the senate by the president were agreed upon by the banking and currency committee. At the same time action on the nominations of Thomas Jones of Chicago and Paul Warburg of New York were delayed pending further inquiry. The names of Adolph Miller of California; Charles Hamlin of Massachusetts; and W. P. G. Harding of Alabama, will be presented to the senate for confirmation immediately.

#### TO AMEND HOME RULE BILL

LONDON, July 2.—Debate in the house of lords on a bill to amend the home rule bill was characterized by general recognition on the part of unionist peers that some means of settlement must be found, and that amending the bill offered the only way to avert civil war in Ireland.

### All In Readiness For Big Moose Day Celebration

Every arrangement is complete for the great Moose Day celebration at Riverside Park tomorrow. Of course there will be no end of things doing in town tomorrow, but the majority of the sports and the Moose Midway will be held at the Park. The big parade will begin at 9:30 o'clock starting from Moose Home. It will be reviewed at the city hall band pavilion and is expected to eclipse anything of the sort held in Phoenix in a long time. Handsome prizes have been offered for the various parade events. There are two grand prizes for the automobile branch of the parade, one a silver loving cup for the city of Phoenix, donated by Mayor George U. Young will be awarded to the most appropriately decorated automobile from the standpoint of the Loyd Order of Moose. In other words, the machine bearing those decorations more nearly typical of the order will be awarded this cup. The other grand prize is also a silver cup donated by Frank Hilderbrand to be awarded to the best decorated car from the general standpoint of beauty. The full program has already been printed for the day. Every member of the order has been directed to be on hand at Moose Home not later than 9 o'clock where pennants, hat bands and canes may be obtained. Those who will wear white hats, light trousers, white shoes, red ties and red socks, should see to it today that these articles are in readiness for the stores will not be open on the Fourth. The merchants generally took the hint and have given up all notion of making their clerks work on a day when everybody else is enjoying themselves and are not enjoying in purchasing goods of any description. All prospective entrants for the various events, except the modified marathon race, may make their entries at the park up to half an hour before the particular contest is to be held. The entries for the marathon race may be made today with Secretary Van Tyne of the Moose Lodge or with Mr. Turner at the Y. M. C. A.

### TEN BILLS AND 5 AMENDMENTS ARE INITIATED

Final Petitions on Direct Legislation Propositions Filed With Secretary of State Last Night — Will Make Long Ballot

Fifteen measures, five of them proposed amendments to the constitution, will be submitted to the voters of Arizona on November 3 for adoption. The time for filing petitions expired last night at midnight, at which time it was announced that the following measures had been filed bearing the required number of signatures, and they will appear on the ballot next fall. The figures given are not the final count, but will be found approximately correct.

**Constitutional Amendments**  
\$5,000,000 bond issue for state highway system, 4756.  
Prohibiting sale of intoxicating liquors, 6316.

Abolishing the veto power of governor and legislature as applied to initiative and referendum measures, 3237.  
\$5,000,000 bond issue for reclaiming arid lands, 2257.

**Initiative Measures**  
To provide for an equal system of taxation, 2617.  
Panama expositions appropriation, 2162.

Providing that 50 per cent of employees must be United States citizens, 3771.  
Prohibiting blacklisting, 3023.  
Old age and mothers' pension, 2912.  
Regulating electrical construction, 2609.

Abolish capital punishment, 2129.  
Creation of Miami county, 4272-4217.

To develop resources of the state, establish state banking system, printing plant, etc., 2820.  
Providing for semi-annual payment of taxes, 2269.

The Kinney bill and the amendment providing for unlimited indebtedness failed by narrow margins of getting on the ballot.

The flood of petitions which kept coming in all day at the office of Secretary of State Sidney P. Osborn, abated somewhat before the time limit expired at midnight, only one measure being filed at the last minute. This was the proposed amendment providing for a \$5,000,000 bond issue for the development of arid lands. Up to six o'clock the measure had only 519 names to its credit, but petitions bearing over 2500 names came in on an evening train, and the number required were secured at a late hour. In fact it lacked only two minutes of twelve when the last petition was filed, the total being 3257, or fifteen more than the number prescribed by law for constitutional amendments.

#### FOR CHRISTIAN LEADERS

KANSAS CITY, July 2.—That the greatest need of every community is for capable leaders with Christian ideals who will apply them to solutions of municipal, social, economic and political questions was asserted by S. Eber Prize, president of the Ottawa University of Ottawa, Kansas, in an address before the twenty-first convention of the Baptist Young People's Union of America, held jointly with the Baptist Young People's Union of the South, here today.

#### TO TRANSFER BATTLESHIP

WASHINGTON, July 2.—Arrangements for the transfer of the battleship Idaho, now at Naples, to the Greek government, were completed and the battleship Maine was ordered to sail from Philadelphia Wednesday for the Italian port to receive the Idaho's crew and naval academy midshipmen aboard her.

### MORGAN TALKS BUSINESS AT WHITE HOUSE

Financier Meets President and Holds First of Series of Conferences — President Plans Dealing With Conditions

WASHINGTON, July 2.—For nearly an hour the president discussed business conditions with J. P. Morgan at the first of a series of conferences which will bring to the White House men foremost in industry and finance. This is one of the very few occasions on which the president has received one of the recognized leaders of "big business."

Officials said that while the administration's great legislative projects—tariff and the currency—were under way, and while the trust program was being completed, the president felt that there should be no opportunity for a charge of receiving inspiration from business and financial centers. Now that two reforms are completed and a third in its final stage, the president said he felt an exchange of thought and information with captains of industry would be conducive to the business revival he expects to see along the lines the administration holds to be legal.

Next week Henry Ford, the Detroit manufacturer, will confer with the president, and after that a delegation from the Chicago Association of Commerce will be here. Out of these exchanges, the president expects business men will learn that lawful enterprise has nothing to fear from the democratic administration. The president said Morgan's call was pleasant and largely reminiscent, as they had known each other a long time, and Morgan expressed no opinion as to whether business was good or bad.

Morgan knew the president at Princeton and the personal element in the call was a large one. Whether Morgan came on his own initiative or a t invitation from the president was not established. Officials said Morgan asked for an engagement, and another version was that mutual friends arranged for Morgan and the president to "talk things over."

The president said the attitude of business men seemed to be growing in favor of an administrative trust program. White House officials declared the president had no thought of altering his legislative program. Morgan later visited the senate, where the doorkeeper barred the way to the private gallery used by guests and senators.

"Got your ticket?" demanded the sentry. "No, but I am acquainted with Senator Root," ventured Morgan. "I can't help that," responded the guardian of the door. "Go around to the other door where they let anybody in without a ticket."

Morgan did, and sat in the gallery nearly an hour unrecognized.

#### WEATHER TODAY

WASHINGTON, D. C., July 2.—For Arizona: Probably showers in the north portion.

### Anti-Servians Are Busy In Presence Of Death

VIENNA, July 2.—The bodies of the murdered Archduke Francis Ferdinand and his wife, the Duchess of Hohenberg, arrived at the Southern railway station at 10 o'clock tonight on board a special train from Trieste. The anti-Servian agitation, which is becoming an exceedingly dangerous symptom, shows no sign of abating. Even while the funeral cortege was on the way from Hofburg, hundreds of excited students engaged in a des-

### WILSON WOULD PAY BLACKMAIL SAYS COLONEL

Says if Treaty is Put Through for Payment of \$25,000,000 to Colombia, Administration Forfeits Right of Respect

#### SAYS DUBOIS ONLY INSTRUMENT

Holds Wilson Personally Responsible for the Final Act of Approving Treaty and Involves Secretary Bryan

OYSTER BAY, July 2.—If the Wilson administration puts through the treaty with Colombia, providing for the payment of \$25,000,000, asserted Colonel Roosevelt in a statement tonight, it will forfeit all right to the respect of the people of the United States. Roosevelt's statement was drawn out by that of James T. Dubois, former minister to Colombia, who assailed the acts of the Roosevelt administration in connection with the Panama revolution.

The former president barely referred to the Dubois statement, however, but plunged into a denunciation of the treaty before the senate. "I have nothing to say about Dubois," the colonel said in his statement. "He was merely an instrument. Wilson is responsible for the payment of blackmail to Colombia. Whether he did it on his own initiative or at the instigation of Bryan is wholly unimportant, and it is infinitely less important what particular subordinate was chosen to carry through the disgraceful transaction or to apologize for it in the public press."

"Neither Wilson nor Bryan can answer my statement," continued the statement. "The payment, if made, will be the naked payment of belated blackmail, and the mere proposal to make it is an outrage on the honor and a heavy blow to the interests of the American people."

"There is small wonder that many hundreds of Americans in Mexico have been endeavoring to become British, French or German subjects in order to get some protection from some government."

"An administration that will conclude such a treaty as this for payment of blackmail to Colombia has forfeited the right to the respect of the people of the United States."

Colonel Roosevelt's reference to Mr. Dubois as an "instrument" related to the draft of the treaty with Colombia, prepared by Mr. Dubois, which Secretary Bryan made public recently with the object of showing that the Taft administration was willing to express regret to Colombia for acts of the Roosevelt administration. It was said later, however, that this draft never was approved by the Taft administration.

#### TWO BUTTE ARRESTS

Sheriff's Office Believes Important Prisoners Apprehended

BUTTE, July 2.—Two men alleged to have had a hand in the recent destruction of the Union Miners' hall and the blowing up of the safe, are in the county jail, and efforts are being made by the sheriff's office to arrest others for whom warrants have been issued.

"Red" Foley, who was arrested late last night, is charged with grand larceny in taking \$1,000 belonging to the miners' union, alleged to be the amount of money in the safe when it was dynamited on June 13.

John Tomich was arrested today as he came off shift in the Stewart mine. He is charged with being one of the men who compelled the engineer of the Stewart, at the point of a gun, to lower him into the mine where the dynamite used in the destruction of the Union hall was obtained.

#### WEATHER TODAY

WASHINGTON, D. C., July 2.—For Arizona: Probably showers in the north portion.
